

PRINCE KUMAR

+91 9837771886 — princek.me.23@nitj.ac.in — princekumar9837771886@gmail.com

Objective

Mechanical Engineering undergraduate at NIT Jalandhar with hands-on experience in CAD modeling, simulation, and embedded systems. Passionate about robotics and automation, with a track record of building real hardware prototypes and deploying end-to-end solutions. Seeking an internship to contribute to design, manufacturing, or automation projects in a fast-paced environment.

Education

National Institute of Technology, Jalandhar

B.Tech — Mechanical Engineering

2023 – 2027
Jalandhar, Punjab

CGPA: 7.52 / 10

Skills

CAD & Design	SolidWorks, AutoCAD : 3D modeling, assembly design, technical drafting
Simulation	ANSYS (Thermal / Fluid / Structural), Abaqus : FEA, CFD, failure analysis
Manufacturing	Turning, milling, 3D printing, material selection, prototyping
Robotics & IoT	Arduino, ESP32, sensors, actuators, motor control, Wi-Fi integration
Programming	Python (NumPy, Pandas, Scikit-Learn), MATLAB basics
Tools	MS Office, Power BI, Canva, AI tools

Projects

Pipe Vice Design

Academic Project

2025
NIT Jalandhar

- Designed Fixed Jaw, Movable Jaw, and Spindle assemblies in SolidWorks; selected materials using failure analysis and manufacturability criteria.
- Fabricated and assembled the physical prototype in the workshop; validated performance through hands-on testing.

IoT Temperature Monitoring & Automation System

Personal Project

2025
Self-initiated

- Built an ESP32-based device integrating temperature sensors and a relay module for automated thermal regulation.
- Deployed a real-time Wi-Fi dashboard for remote monitoring and relay control, accessible from any browser.

Internship

AD Infocom Systems, Nagpur

AI/ML Intern (Remote)

Jun – Jul 2025
Nagpur

- Completed structured training and applied supervised and unsupervised learning techniques to real-world datasets.
- Built, evaluated, and iterated on predictive models using Python, Scikit-Learn, and standard ML frameworks.

Achievements & Responsibilities

Hackflash — 1st Place

Design Competition

2025
NIT Jalandhar

- Won first place for rapid prototype design among competing teams.

36-Hour Hackathon

Team Participant

2025
NIT Jalandhar

- Delivered a fully functional end-to-end solution within the time constraint, demonstrating strong teamwork and execution under pressure.

Deja Vu Club — Core Member

Videography & Film Club

2024 – Present
NIT Jalandhar

- Led camera operations, video editing, and production for major campus events, short films, and promotional content.
